PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

25X1D

25X1A A storage area is located in the northeast section of Polotsk (55-29N 28-49E). This area is served by a rail spur from the Polotsk-Vileyka rail line. Urban streets provide access to other installations. Polotsk Army Barracks and Maneuver Area [redacted] is located 5 kilometers (km) to the north and Polotsk Army Barracks, Borovukha (BE No [redacted] is located 18 km northwest of this storage facility.

25X1A This secured installation covers approximately 22 acres and contains nine storage buildings and one administration building.

The area is covered on [redacted] photography and [redacted] missions between [redacted] Comparative analysis revealed the same general level of usage between [redacted] [redacted] with reduced activity during the winter months. Slight changes since [redacted] include new roofing for all of the storage buildings, the removal of one administration building, and the dismantling of a rail spur which entered the area from the east.

The military significance of this installation cannot be determined.
